

# Nature Trail

Horseshoe Bend's Nature Trail is 2.8 miles of winding pathways through the Battlefield area of the park. Traveling through the lush hardwood and pine forest you pass the Tallapoosa River and small meandering streams. The sound of birds transfer you into a natural habitat with easy access in and out of the trail along the park's tour road.

There are steep hills in some places, low areas, bridges and paved sections. Some of the trail is not accessible to those in wheelchairs. Benches are spread out along the path but no water fountains, so bring your own water. The hike takes about 1 – 2 hours

depending on your pace.

There is wildlife along the trail, an occasional bird, turkey, armadillo or snake may cross your path. Be prepared, but remember these

animals are protected on park grounds. There will be mosquitoes, chiggers and ticks in the area as well.

Enjoy your hike!
